

The New Scout Hall

The new 2,500 square foot Scout Hall is designed to evoke the feeling of a grand lodge with its rough-hewn ceiling beams, door and window trim, and in its stone-surrounded front door. It also features a private, triple-arched entry porch and outdoor terrace, equipped with the appropriate flag-raising capabilities. The new Scout Hall will become the home to Cub Scout Troop 354 and Boy Scout Troop 354.

Specifically designed with the needs of Scouts in mind, this gathering room is fifty percent larger than the existing hall. This room features an 11-foot ceiling, wood wainscot and built-in audio visual and presentation equipment.
